

DESTINATIONS

Destinations of Year 11 students is given a very high priority due to the serious potential implications of these vulnerable students leaving the secure, supportive environment they have experienced at Everton Free School. These serious potential implications are for the individual students themselves, and also for the communities they live in.

Student destinations will be a high priority for the new A.P. Task Force which is currently being set up at the school, supported by significant government funding.

The table and chart below show the percentage of 2019/20 Year 11 students with destinations in education or employment. It also shows the percentage of students that have failed to access education or employment, or whose destination is not known.

Destination Type	Percentage of Year 11 Students
Education	64%
Employment	21%
Neither	14%

86% of Year 11 leavers in 2019/20 have destinations in either education or employment. While this still leaves 14% in neither or unknown, this is a very commendable outcome for this highly vulnerable group.
